Data loss prevention technologies

Partner with TSI

## WHY TSI?

TSI invests heavily in key components to ensure our IT system and data remain secure.

TSI uses a collocated data center – the same data center used by Fortune 50 financial service companies – and loss prevention software from leading security providers.

TSI is FISMA certified, PCI DSS 3.1, and SSAE 16 SOC 1 TYPE 2 compliant.

## DON'T WASTE ANY MORE TIME

wondering if your company and your customers will be the next to face a major data breach.

**Trust your A/R management and collections to TSI.**
